Step 1

Add New Domains

🌐 **matthewrobertson.org**
Verification Code: [   ]

Assign Partner   Assign Pages   Remove

Step 2A

Connect partner to domain   ✕

Let another business work on your domain. Select a role to create a link that you can share to connect your domain.

Role   **Owned Do...** ▾

Link to share   https://business.facebook.com/share_by_link/379523   ⊞ **Copy**

Each link can only be used once to connect to another business. If the person you send this to isn't an admin on Business Manager, they'll need to create a Business Manager account.

This link will expire in 30 days.

Connect your domain using your partner's business ID instead.   **Close**

Step 2B

Connect partner to domain   ×

Enter the business ID for your partner to let them work on your domain. Your partner can find their business ID by going to the Business Info tab in Business Settings.

Role   [Select a role ▾]

Business ID   [Partner's business ID]

Connect your domain using a link instead.   [Cancel]   [**Connect**]

Matthew Robertson Inc has given you access to their domain , mathewrobertson.org
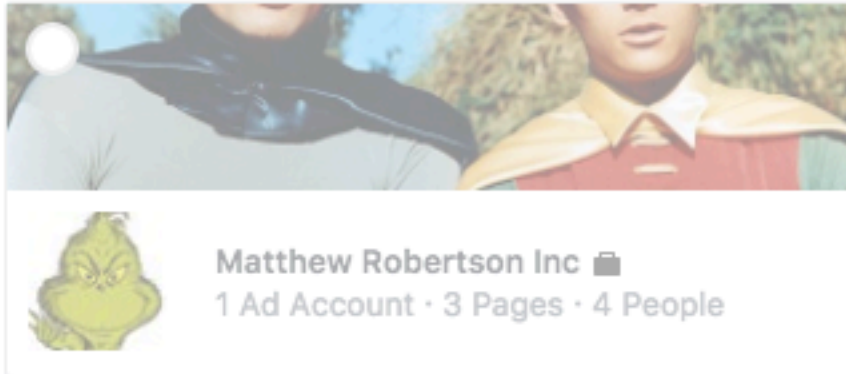

Step 3

mathewrobertson.org
Role: Domain Admin
domain

Which business do you want to connect this domain to?
