2020 Collaborative Journalism Summit

Speaker is muted	"So what's next for ..."	"...is more important than ever"	Choppy video	"Check the chat"
Silent head nodding in agreement	Glitchy virtual background	"But because of COVID-19..."	Pet sighting	"Can you all see my screen?"
"Can you hear me now?"	Speaker takes a drink		Webcam issues	Weird tchotchke
Diploma on the wall	Other human being sighting	Someone says "community" 3+ times in one sentence	"We mostly shared stories via email."	Wrong screen shared
"I think we have time for 1 more question"	Notification during screen share	"Let's discuss this offline"	Trump reference	"Collaboration is hard"
