## First Draft Slack Community

- Our online community is approaching 300 members, with 175 of those members based across the U.S. Our membership includes national and local newsrooms, university students and professors, journalism organizations, researchers, and community groups.
- The team has monitored and produced briefing documents to share with the community on emerging misinformation topics related to election. More than 50 briefings have been produced for the community many US Election related. Portions of these documents will soon be available on the First Draft website.
- One of the bigger topics the team has covered is the [state reopen protests](#). We have collected more than 200 groups and 70 Facebook events, to analyze the coordination of the protests and rallies by state:
